

In The United States District Court
In And For The District of Delaware

Dettel Hartmann,
Plaintiff,
v.

Warden Thomas Carroll, et.al.

Civ No. 06-340-***
(Thynge)

Motion For Appointment of Counsel

Request this Honorable Court appoint counsel for this TRO and infirmation evidentiary hearing by law and ethics because I am a mentally and emotionally disabled person qualified under the American Disabilities Act and Rehabilitation Act thereby unable, incapable to represent the laws + facts in court, and to effectuate these motions by me.

And because I am handicapped unconstitutionally at least to uphold these laws due to these prison conditions here obstructing and denying my access to information to present all claims, defenses, issues to the courts in a precedentially proper manner requiring timely, equal, effective, meaningful, capable, adequate, and fundamentally fair access to information and items per a standard lawyers office for the courts needing meritorious issues to be properly worded and presented by me.

This effectively denies all my rights, privileges, immunities, and entitlements, as is, as needed for humane, ethical, legal,

and professional standards my custodians / Defendants must follow,
but are not in this case. This effectively denies my consti-
tutional rights entirely for one; justice delayed is justice denied.
Any questions? This is the best I can do at this time.
